

Seminar Announcement

Speaker: **Kenan TAŞ**

(Çankaya University)

Recent Topics in Fixed Point Theory

In the first part, I will give a brief summary about Metric fixed point theory and several types of contraction mappings and compatibility conditions, in the second part of my speech I will introduce some new ideas about fixed point theory on Cone Banach Spaces and on General Topological Vector Spaces.

DATE: March 03, 2010

TIME: 15:45

PLACE: FEF 403 (Seminar Room)

All interested people are cordially invited.
After the seminar, some cookies and soft drinks will be served.
