WORKSHOP ON DYNAMICS OF LINEAR OPERATORS

Friday

15.40-17.40: Karl G.-Grosse-Erdmann (Université de Mons), Özgür Martin (Mimar Sinan Fine Arts University) *Mini Course: Introduction to Linear Dynamics*

Saturday

10.00-11.00: J. Alberto Conejero (IUMPA - Universitat Politècnica de València) *Chaotic Solution C_0 -semigroups of Differential Equations*

11.00-12.00: Juan P. Bès (Bowling Green State University) *Convolution Operators Supporting Hypercyclic Algebras*

12.00-14.00: Lunch

14.00-15.00: Nikos Tsirivas (University of Crete) *Common Hypercyclic Vectors for Families of Backward Shift Operators*

15.00-16.00: Yunied Puig de Dios (Ben-Gurion University of the Negev) *The Role of Piecewise Syndetic Sets in Linear Dynamics*

16.00-17.00: Karl G.-Grosse-Erdmann (Université de Mons) *Upper Frequent Hypercyclicity*

Date : June 24, 25, 2016

Place : IMBM Seminar Room, Boğaziçi University South Campus
