İSTANBUL KÜLTÜR UNIVERSITY

WORKSHOP ON LEAVITT PATH ALGEBRAS AND RELATED AREAS

14-16 June 2017

The aim of our workshop is to bring together those interested in the emerging and very active area of Leavitt path algebras and related mathematics (like Kumjian-Pask algebras, C*-algebras), including students and researchers, experts and non-experts. To facilitate the participants interaction there will be no parallel talks and the talks will usually have an expository component as well as introducing some very current research (as yet unpublished or even in preparation). All talks will be in english.

There is no registration fee, but we request those interested to register as soon as possible to enable us with the planning of the technicalities of the workshop.
