**24<sup>th</sup> International Conference  
on Difference Equations and Applications (ICDEA 2018)  
Technische Universität Dresden, Germany  
May 21 – 25, 2018**

### **Overview**

The purpose of ICDEA 2018 – official conference of the International Society of Difference Equations (ISDE) – is to bring together experts and students in the theory and applications of difference equations and discrete dynamical systems. Plenary speakers are experts chosen from the many areas of difference equations, discrete dynamical systems and their interplay with nonlinear science. Contributed talks in any area of difference equations and discrete dynamical systems are welcome.
