SEMINAR

A critical approach metric fixed point theory

SPEAKER : Prof. Dr. Erdal Karapınar,
China Medical University, Taichung, TAIWAN

DATE : 1 March, 2019

TIME : 13:30

PLACE : Çankaya University (Central Campus), R-213

ABSTRACT. The main goal of this talk is to indicate some indispensable critics on the recent results in the frame of the metric fixed point theory with a retrospective approach. Starting with a brief history of metric fixed point theory, we shall emphasize the mainstreams of the metric fixed point theory researches. After then, we shall show the equivalence of the metric fixed point results that were proved in the setting of different abstract spaces.

The talk will be largely expository.
