SABANCI UNIVERSITY
MATH GRADUATE PROGRAM

WELCOMES APPLICATIONS FOR MS/PHD DEGREES

topics

coding theory, cryptology, combinatorics, commutative and computational algebra, computational number theory, diophantine equations, elliptic curves, finite fields and applications, finite geometry, function fields, integer partitions,

complex potential theory, functional analysis, holomorphic dynamics, complex geometry, nonlinear partial differential equations, operator theory, pseudo-differential operators, probability and stochastics, martingales, several complex variables.

TUITION WAIVER + MONTHLY STIPEND + HEALTHCARE AND HOUSING
TO ALL ADMITTED STUDENTS

● application deadline: May 10
