

Mathematical foundations of modern machine learning algorithms*

September, 1-6
Izmir, Turkey

Sinan Yıldırım Bayesian statistics

Özgür Martin Representation learning

Tolga Birdal Geometric deep learning

Gönenç Onay Logic and machine learning

Çağatay Yıldız Language models and attention

Lara Höfling Comparing learning systems

Register
here until
June, 20

More info on
the summer
school

* applicants may be funded up to 500 euros thanks to the generous support by Centre International de Mathématiques Pures et Appliquées (CIMPA) and Türk Matematik Derneği. Funding results will be announced on June, 30.
